STAFF OPERATIONS

ABSENCES

Staff members unable to report to work for any reason must input the absence into the Absence Management System formerly Aesop as soon as possible to ensure that appropriate substitute arrangements may be made. Substitutes are assigned on a daily basis unless a longer duration is specified.

In order to facilitate continuity during absences, staff members unable to return to their duties the following day should input absence into Absence Management as soon as possible. Whenever possible, and as appropriate, substitutes will be retained during the course of your absence.

Staff members may, at the time of the reported absence, request a particular substitute. Requests that a particular substitute not be called may be made in advance through the Human Resource Department. Final decisions regarding substitute use or nonuse will be made by the district. Under no circumstances may staff members arrange coverage through personal arrangements with substitutes or others either for all-day or temporary absences from their duties.

Substitute coverage for absences during work hours due to illness or emergency will be arranged as needed upon notification to the building principal or principal's lead secretary.

In lieu of an absence report form, all absences must be entered into the employee portal on Infinite Visions. The link for the portal may be found on the district website under staff resources.

Paid and unpaid leaves are provided in accordance with collective bargaining agreements, established Board policy and law.

Numerous or excessive absences shall be reviewed on a case-by-case basis by the immediate supervisor to determine the impact of the absences on the program services. Counseling, disciplinary action and/or a program of assistance for improvement may be initiated by the supervisor in response to the absences.

A covered employer⁴ is required to give an eligible employee leave, if they are a victim of domestic violence, harassment, sexual assault or stalking, or is a parent or guardian of a minor child or dependent who is a victim of domestic violence, harassment, sexual assault, or stalking. Staff is asked to refrain from keeping personal items of value in or about their desks. Personal items should never be left unsecured. Students should be instructed to leave valuables at home.

The district will not be responsible for the loss of, or damage to, personal property.

COMMUNICABLE DISEASE/BLOODBORNE PATHOGENS/INFECTION CONTROL PROCEDURES

The district provides for the reasonable protection against the risk of exposure to communicable disease to all staff while engaged in the performance of their duties. Reasonable protection from communicable diseases is generally attained through immunization, exclusion or other measures in accordance with Oregon law, by the local health department, or in the Communicable Disease Guidance published by the Oregon Department of Education and the Oregon Health Authority. Infection control procedures, including provisions for handling and disposing of potentially infectious materials, have also been established through Board policy and administrative regulations for staff and student protection.

A staff member may not attend work while in a communicable stage of a restrictable disease or when an administrator has reason to suspect that the staff member has or has been exposed to any disease for which exclusion is required, in accordance with law and per administrative regulation GBEB-AR – Communicable Diseases – Staff.

All staff shall comply with all other measures adopted by the district and with all rules set by the Oregon Health Authority, Public Health Division, and the local health department.

Staff members have a responsibility to report to the district when infected with a communicable disease unless otherwise stated by law.

HBV*/Bloodborne Pathogens Training and Immunization

Staff members designated as primary first-aid providers, or who may otherwise incur occupational exposure to blood or other potentially infectious materials in conjunction with their assigned duties as determined by the district, will receive appropriate information and training as follows:

1. At the time of initial assignment to tasks where occupational exposure may take place;
2. At least annually thereafter and within one year of their previous training;
3. When changes such as modification of tasks or procedures or new tasks or procedures affect the staff member's occupational exposure.

Additionally, HBV vaccination and vaccination series will be made available after training and within 10 days of initial assignment to all staff that have been identified by the district as having occupational exposure. Report any occupational exposure to bloodborne pathogens to the building safety officer. Following a report of an exposure incident, the district will immediately make available to the exposed staff member a confidential post-exposure evaluation and follow-up.

Employees who use medical sharps in the performance of their duties (e.g. administering injectable medicines to students, such as epinephrine and glucagon) will annually be provided an opportunity to identify, evaluate and select engineering and work practice controls (e.g. sharps disposal containers, self-sheathing needles, safer medical devices, such as sharps injury protections and needleless systems). The district will implement such work practice controls, as appropriate.

Infection Control Procedures

Appropriate hygienic and sanitation practices have been established by the district as follows:

1. Standard precautions are to be followed at all times. Standard precautions require the assumption that staff and students approach infection control as if all direct contact with human blood and body fluids is known to be infectious for HIV*, HBV and/or bloodborne pathogens;
2. Whenever possible, students would be directed to care for their own minor bleeding injury. This includes encouraging students to apply their own band-aids. If assistance is required, band-aids may be applied after removal of gloves if care giver will not come into contact with blood or wound drainage;
3. Food and Drug Administration (FDA) approved gloves are required for all tasks in which an individual may come into contact with blood or other potentially infectious materials. Such tasks include cleaning body fluid spills, emptying trash cans, handling sharps/containers, handling contaminated broken glass, cleaning contaminated equipment and handling contaminated laundry/clothing. This also includes assisting with any minor wound care, treating bloody noses, handling clothes soiled by incontinence, diaper changing and cleaning up vomit;
4. Immediate, complete and effective hand washing with soap and running water of at least 30 seconds duration should follow any first aid or health care given a student or contact with potentially infectious materials;
5. If exposure to blood or other potentially infectious materials occurs through coughing, any first-aid procedure or through an open sore or break in the skin, thorough washing, preferably with germicidal soap, is necessary;
6. In the event hand-washing facilities are not readily available, thorough cleaning using an antiseptic cleanser and clean cloth/paper towels or antiseptic towelettes provided by the district as an alternative is necessary. In the event alternatives are used, hands must be washed with soap and water as soon as feasible;
7. Contaminated work surfaces shall be decontaminated with an appropriate disinfectant after completion of procedures; immediately or as soon as feasible when surfaces are overtly contaminated or after any spill of blood or other potentially infectious materials; and at the end of the work shift if the surface may have become contaminated since the last cleaning. Clean surfaces with soap and water and then rinse with an Environmental Protection Agency (EPA) approved disinfectant** following labeling instructions for use, or a freshly-made solution of one part bleach to nine parts water, and allow to air

dry. These surfaces include equipment, counters, mats (including those used in physical education classes and athletic events), toys or changing tables;

8. An EPA-approved disinfectant must be used when cleaning fluids such as blood or vomit from the floor or other such contaminated surfaces;
9. Contaminated laundry such as clothing and towels must be placed and transported in bags and containers in accordance with the district's standard precautions. All such items must be laundered in hot or cold water and soap and placed in a dryer;
10. Needles, syringes, broken glassware and other sharp objects found on district property must not be picked up by students at any time, nor by staff without appropriate puncture-proof gloves or mechanical device such as a broom, brush and dust pan.
11. All wastebaskets used to dispose of potentially infectious materials must be lined with a plastic bag liner that is changed daily;
12. Gloves and repellent gowns, aprons or jackets are required for tasks in which exposure to blood or other potentially infectious materials can be reasonably anticipated to contaminate street clothing. Type and characteristics of such protective clothing will depend on the task. Such tasks may include diapering/toileting with gross contamination, assisting with wound care, sorting or bagging contaminated laundry/clothing and disposing of regulated waste with gross contamination;
13. Maximum protection with gloves, face and/or eye protection and gowns are required whenever splashes, spray, spatter or droplets of blood or other potentially infectious materials may be generated and eye, nose or mouth contamination can be reasonably anticipated. Such tasks may include feeding a student with a history of spitting or forceful vomiting and assisting with severe injury and wounds with spurting blood;
14. If a first-aid situation occurs, students should report to a person in authority, staff should report to a supervisor.

- * HIV – Human Immunodeficiency Virus
- * HBV – Hepatitis B Virus

COMPLAINTS

Student/Parent Complaints

The district recognizes that complaints regarding staff performance, discipline, grades, student progress and homework assignments will be made by students and parents from time to time. Every effort will be made to ensure that such complaints are handled and resolved informally and as close to their origin as possible. Students, parents and others with complaints will be encouraged to discuss the complaint directly with the staff member. All such meetings should be held in confidence and not in the presence of others.

If the complaint is not informally resolved, staff should advise the complainant that they may submit the matter directly to the building principal or immediate supervisor, as appropriate. The complainant will be provided with necessary formal complaint procedure guidelines in accordance with Board policy and applicable provisions of collective bargaining agreements.

When a complaint is made directly to the Board as a whole or to an individual Board member, it will be referred to the superintendent for appropriate building administrator follow-up. If the complaint is against the superintendent, the complaint will be referred to the Board chair.

All staff members should familiarize themselves with Board policy and applicable provisions of administrative regulations and collective bargaining agreements regarding the handling of complaints. Refer to policy KL – Public Complaints.

Bias Incident Complaints

All employees are entitled to work in an environment that is free from discrimination or harassment[based on perceived race, color, religion, gender identity, sexual orientation, disability or national origin].

“Bias incident” means a person’s hostile expression of animus toward another person, relating to the other person’s perceived race, color, religion, gender identity, sexual orientation, disability or national origin, of which criminal investigation or prosecution is impossible or inappropriate. Bias incidents may include derogatory language or behavior directed at or about any of the preceding demographic groups.

“Symbol of hate” means nooses, symbols of neo-Nazi ideology or the battle flag of the Confederacy.

The district prohibits the use or display of any symbols of hate on school property , or in an education program except where used in teaching curriculum that is aligned with state standards of education for public schools..

The complaint process is outlined in administrative regulation ACB-AR - Bias Incident Complaint Procedure.

Staff Complaints

Any staff member who believes there is evidence of, and wishes to report a violation, misinterpretation or inappropriate application of district personnel policies and/or administrative regulations; a mismanagement, gross waste of funds or abuse of authority; or a substantial and specific danger to public health and safety caused by the actions of the district should be directed to the building principal for informal discussion and resolution.

If the staff complaint is against the superintendent, the complaint should be referred to the Board chair.

If the complaint is not resolved informally, formal complaint procedures may be initiated by staff in accordance with Board policy and administrative regulations.

This complaint procedure may not be used to resolve disputes and disagreements related to the provisions of any collective bargaining agreement.

COMPUTER USE

Staff may be permitted to use the district’s electronic communications system only to conduct business related to the management or instructional needs of the district or to conduct research related to education and otherwise when in compliance with board policy and administrative regulations.

Personal use of the district’s system or district-owned computers or devices, including internet and email access by district staff is restricted. Any personal use by staff is limited to such uses as deemed permissible under the Oregon Government Ethics Commission (OGEC) guidance (e.g. “occasional use to type a social letter to a friend or family member, preparation of application materials for another position in the district, or computer games which may serve to improve the individual’s keyboard proficiency and software component familiarity”). Such use is restricted to the employee’s own time.

Staff who violate Board policy or administrative regulations, including general system user prohibitions, shall be subject to discipline up to and including dismissal. Violations of law may be reported to law enforcement and violations of applicable Teacher Standards and Practices Commission (TSPC) Standards for Competent and Ethical Performance of Oregon Educators will be reported to TSPC.

The district retains ownership and control of its computers, hardware, software and data at all times. All communications and stored information transmitted, received or contained in the district’s information system are the district’s property and are to be used for authorized purposes only. Use of district equipment or software for unauthorized purposes is strictly prohibited. To maintain system integrity, monitor network etiquette and ensure that those authorized to use the district’s system are in compliance with Board policy, administrative regulations and law, school administrators may routinely review user files and communications.

Files and other information, including email, sent or received, generated or stored on district servers are not private and may be subject to monitoring. By using the district’s system, individuals consent to have that use

monitored by authorized district personnel. The district reserves the right to access and disclose, as appropriate, all information and data contained on district computers and district-owned email system.

CONFERENCES

Planned conferences between teachers and parents are essential to the district's efforts to further understanding and close cooperation between the home and school. Parent-teacher conferences are scheduled each fall and spring. The student may be included if the teacher or parent so desires.

Conferences should be treated as an opportunity for constructive, mutual exchange of information and ideas for the welfare and continued academic growth of the student.

Occasionally, teachers or parents may arrange for conferences outside regularly scheduled conference dates, to meet more immediate student needs. Teachers should be prepared to provide after-school or preschool time to meet with students as necessary.

CONTRACTS AND COMPENSATION

Contracts will be issued for all licensed and classified district employees.

Contract teachers are employed pursuant to two-year employment contracts. "Contract teacher" means any teacher who has been regularly employed by a school district for a probationary period of three successive school years and who has been retained for the next succeeding school year.

The Board may enter into agreements that provide for a shorter probationary period of not less than one year for teachers who have satisfied the three-year probationary period in another Oregon school district.

Upon recommendation of the superintendent, the Board may extend a contract teacher's employment for a new two-year term by providing written notice to the teacher no later than March 15 of the first year of the contract. Any new contract that extends the teacher's employment for a new term shall replace any prior contracts.

The superintendent may recommend that a teacher's contract not be renewed for a new two-year term. Following a recommendation, the Board may elect to provide written notice to the teacher prior to March 15 of the first year of the contract.

Salaries, including compensation for extracurricular assignments over and above the duties associated with a staff member's regularly assigned duties, will be determined in accordance with salary schedules and salary placement guidelines established by the Board and/or policies adopted by the Board which are consistent with salary schedules and salary placement provisions of collective bargaining agreements.

It is the staff member's responsibility to provide all information necessary for placement on the salary schedule to the District Office in accordance with timelines established by the district and collective bargaining agreements.

Notice will be given to staff in compliance with rules of the insurance carrier and current relevant collective bargaining agreement regarding domestic partner benefits.

SEXUAL CONDUCT (Reporting Requirements)

Sexual conduct by district employees, contractors, agents of the district and volunteers is prohibited and will not be tolerated. All district employees, contractors, agents, and volunteers of the district are subject to Board policy, GBNA/JHFF –Suspected Sexual Conduct with Students and Reporting Requirements.

“Sexual conduct” as defined by Oregon law is any verbal, physical or other conduct; or verbal, written, or electronic communications by a school employee, a contractor, an agent or a volunteer that involves a student and that are sexual advances or requests for sexual favors directed toward the student, or of a sexual nature that are directed toward a student or that have the effect of unreasonably interfering with a student’s educational performance or creates an intimidating or hostile educational environment. “Sexual conduct” does not include touching or other physical contact that is necessitated by the nature of the school employee’s job duties or by the services required to be provided by the contractor, agent, or volunteer; and for which there is no sexual intent; verbal, written or electronic communications that are provided as part of an education program that meets state educational standards or a policy approved by the Board; or conduct or communications described in the definition of sexual conduct herein if the school employee, contractor, agent or volunteer is also a student and the conduct or communications arise out of a consensual relationship between students, do not create an intimidating or hostile educational environment and are not prohibited by law, any policies of the district or any applicable employment agreements. The definition for sexual conduct does not include behavior that would be considered child abuse as outlined by Oregon law and district Board policy JHFE and JHFE-AR – Reporting of Suspected Child Abuse.

“Student” means any person who is in any grade from prekindergarten through grade 12 or 21 years of age or younger and receiving educational or related services from the district that is not a post-secondary institution of education, or who was previously known as a student by the person engaging in sexual conduct and who left school or graduated from high school within 90 days prior to the sexual conduct.

Any district employee, contractor, agent, and volunteer of the district who has reasonable cause to believe that a student has been subjected to sexual conduct by another district employee, contractor, agent or volunteer; or that another district employee, contractor, agent, or volunteer has engaged in sexual conduct with a student must immediately report such suspected sexual conduct to their building principal or the building assistant principal, in the event the designated licensed administrator is the suspected perpetrator, for their school building. If the superintendent is the alleged perpetrator the report shall be submitted to the Special Programs Director who shall report the suspected sexual conduct to the Board chair. If an employee fails to report suspected sexual conduct or fails to maintain confidentiality of records, the employee will be disciplined up to and including dismissal. If the conduct also constitutes child abuse, the employee must make mandatory reports in accordance with Board policy GBNA/JHFE – Suspected Abuse of a Child Reporting Requirements..

When the district receives a report of suspected sexual conduct by a district employee, contractor, agent or volunteer, the administrator will follow procedures established by the district and set forth in the district’s administrative regulation JHFF/GBNA-AR - Suspected Sexual Conduct Report Procedures and Form. All such reports will be reported to the Oregon Department of Education (ODE) or Teacher Standards and Practices Commission (TSPC) in accordance with administrative regulation. The agency receiving a report will complete an investigation regardless of any changes in the relationship or duties of the person who is the alleged perpetrator.

The district may decide to place the employee on paid administrative leave or in a position that does not involve direct, unsupervised contact with students while conducting an investigation.

When there is reasonable cause to support the report, a district employee suspected of sexual conduct shall be placed on paid administrative leave pending an investigation and the district will take necessary actions to ensure the student’s safety.

When the designee receives a report of suspected sexual conduct by a contractor, an agent or a volunteer, the district shall prohibit the contractor, agent or volunteer from providing services to the district. If the district determines there is reasonable cause to support the report, a district contractor, agent or volunteer suspected of sexual conduct shall be removed from providing services to the district and the district will take necessary actions to ensure the student's safety.

An investigation is a detailed inquiry into the factual allegations of a report of suspected sexual conduct that is based on interviews with the person who initiated the report, the person who may have been subjected to sexual conduct, witnesses, and the person who is the subject of the report; and results in a finding that the report is a substantiated report, cannot be substantiated, or is not a report of sexual conduct. If the subject of the report is a district employee represented by a contract or a collective bargaining agreement, the investigation must meet any negotiated standards of an employment contract or agreement.

If, following the investigation, the district decides to take an employment action, the district will inform the district employee of the employment action to be taken and provide information regarding the appeal process. The employee may appeal the district's decision through the appeal process provided by the district's collective bargaining agreement. A substantiated report is one that: a) An educational provider has reasonable cause to believe is founded based on the available evidence after conducting an investigation; and b) Involves conduct that the educational provider determines is sufficiently serious to be documented in the employee's personnel file.

If the district employee decides not to appeal the employment action or if the determination of an appeal is sustained, the district shall create a record of the findings of the substantiated report and the employment action taken by the district will be placed in the records of the school employee maintained by the district. This information may be disclosed to a potential employer .

The district will post in each school building the name and contact information of the person designated to receive sexual conduct reports, as well as the procedures the superintendent will follow up on receipt of a report. When the superintendent takes action on the report, the person who initiated the report must be notified.

The initiation of a report in good faith about suspected sexual conduct may not adversely affect any terms or conditions of employment or the work environment of the person who initiated the report or who may have been subject to sexual conduct . If a student initiates a report of suspected sexual conduct by a Board member, district employee, contractor, agent of the district, or volunteer in good faith, the student will not be disciplined by the Board or any district employee, contractor, volunteer, or agent of the district.

The district will provide to employees at the time of hire, or to a contractor, agent or volunteer at the time of beginning service for the district, the following:

1. A description of conduct that may constitute sexual conduct;
2. A description of the investigatory process and possible consequences, if a report of suspected sexual conduct is substantiated; and
3. A description of the prohibitions imposed on district employees, contractors, and agents when they attempt to obtain a new job, pursuant to ORS 339.378(2).

A district employee shall access, each school year, information and training made available by the district on prevention and identification of sexual conduct, the obligations of employees under ORS 339.388 and 419B.005 - 419B.050 and under adopted board policies to report suspected sexual conduct, and appropriate electronic communications with students.

A district employee, contractor or agent will not assist another district employee, contractor or agent in obtaining a new job if the individual knows, or has reasonable cause to believe the district employee, contractor or agent engaged in sexual conduct. Nothing in this policy prevents the district from disclosing information required by law or providing the routine transmission of administrative and personnel files pursuant to law.

The student and the student's parents or staff member who initiated the complaint shall be notified of the findings of the investigation and, if appropriate, that remedial action has been taken.

The initiation of a complaint in good faith about behavior that may violate this policy shall not adversely affect the educational assignments or study environment of a student complainant or any terms or conditions of employment or work environment of the staff complainant. There shall be no retaliation by the district against

any person who, in good faith, reports, files a complaint or otherwise participates in an investigation or inquiry of sexual harassment.

It is the intent of the Board that appropriate corrective action will be taken by the district to stop the sexual harassment, prevent its recurrence and address negative consequences. Contact the building principal for additional information regarding possible building and district level committee work that may be available.

STAFF/PARENT RELATIONS

The district encourages parents to be involved in their student's school experience. Teachers are advised that unless otherwise ordered by the courts, an order of sole custody on the part of one parent does not deprive the other parent of certain rights. It is the responsibility of the parent with sole custody to provide to the district any court order that curtails the rights of the noncustodial parent.

A noncustodial parent may receive and inspect the school records pertaining to his/her student and to consult with teachers concerning his/her student's welfare and education.

Noncustodial parents will not be granted visitation or telephone access to their student during the school day unless a signed agreement has been submitted to the school by the parent having sole custody of the child/children. Students may not be released to the noncustodial parent without the written permission of the parent having sole custody.

In the case of joint custody, it is the responsibility of the parents to provide the district, in writing, any special requests or clarifications in areas concerning the student and the district's relationship and responsibilities. Such information will be maintained on file in the office and provided to staff, as appropriate.

Staff members with questions regarding custodial and/or noncustodial parent rights with respect to particular students should contact the office.

STAFF ROOM

A staff room is provided to staff use during break, lunch and preparation periods, as may be appropriate. All staff are expected to "pitch in" as needed, to help keep this gathering area clean and orderly.

Students are not permitted in the staff room. Parents and community members should not be conducting business in the staff room.

The district has a suicide prevention plan that includes procedures relating to suicide prevention, intervention, and activities that reduce risk and promote healing after a suicide; identification of the school official responsible for responding to reports of suicidal risks; a procedure by which a person may request a district to review the actions of the school in response to suicidal risk; methods to address the needs of high risk youth (including youth bereaved by suicide; youth with disabilities, mental illness, or substance abuse disorders; youth experiencing homelessness or out-of-home settings, such as foster care; youth identifying as lesbian, gay, bisexual, transgender, queer, and other minority gender identities and sexual orientation; and youth identifying as Native American, Black, Latinx, and Asian); a description of, and materials for, any training to be provided to school employees as part of the plan; procedures for reentry into the school environment following a hospitalization or behavioral health crisis; and a process for designating staff to be trained in a evidence based suicide prevention program.

Staff members are responsible for the supervision of all students while in school or engaged in school-sponsored activities. All teachers are expected to be in their classrooms prior to the arrival of students.

Under no circumstances are classrooms or other areas where students are under the supervision of assigned staff to be left unattended while students are present. Teachers who may need to temporarily leave the classroom or their assigned duties in an emergency situation while students are present are expected to contact the office to arrange for temporary coverage.

No other staff member may leave his/her assigned group unsupervised except as appropriate supervision arrangements have been made to take care of an emergency.

During school hours, or while engaged in school-sponsored activities, students may be released only into the custody of parents or other authorized persons.

TEACHING ABOUT RELIGION

Teachers shall be permitted to teach or present to students information concerning religions and religious beliefs, but teachers shall not promote or inhibit, openly or covertly or by subtlety, a particular religion, religious belief, or nonreligious belief.

Students and staff members may be excused from participating in programs or activities which are contrary to their religious beliefs without penalty.

TELEPHONES

Telephones are available throughout the building for staff convenience. Long distance calls for district business purposes may be placed from a telephone with an unrestricted line, located in the office. Local personal telephone calls made during working hours from district telephones should be brief, infrequent and placed before or after school, during breaks, lunch or at other times when staff is not responsible for supervising students. Personal long distance calls may not be made on district telephones, even if staff offers to reimburse the district for such charges. If it becomes necessary to make personal long distance calls while at work, such calls must be made with the staff member's personal cell phone or calling card.

Staff possession or use of personal electronic devices on district property, in district facilities during the work day and while the staff is on duty in attendance at district-sponsored activities may be permitted subject to the limitations set forth in policy and consistent with any additional school rules as may be established by the superintendent. At no time will a personal electronic device be used in a manner that interferes with staff duty and responsibility for the supervision of students. See policy GCAB.

THREAT RESPONSE

The Rogue River School District places student and staff safety as our highest priority. The school district takes all threats seriously whether we think the threat may be real or not. All threats of violence will be investigated by administration.

When a threat of violence is learned by school officials, school policy including JFCM will direct the schools response. School officials may refer the case to law enforcement for investigation and legal action. School officials working with law enforcement will determine the appropriate level of response based on the level of risk and information known at that time.

Communication with parents will be consistent with district policy and with the level of school response determined necessary by school and law enforcement.

District staff will not operate more than one UAS at the same time.

District employees will work with administrators to ensure that proper insurance; registration, as required by FAA and ODA; reporting to FAA, and authorization from district administration are in place prior to use as a part of the district's curriculum.

A staff member in violation of the policy may be subject to disciplinary action, up to and including dismissal.

USE OF PRIVATE VEHICLES FOR DISTRICT BUSINESS

The use of private vehicles for district business, including the transportation of students, is generally discouraged. Staff members should use district-owned vehicles whenever possible, scheduling activities and other transportation far enough in advance to avoid any nonemergency use of private vehicles. No staff member may use a private vehicle for district business without written permission from the district.

When using any vehicle while on district business, staff shall use seat belts. Failure to do so is grounds for dismissal.

At least two staff members must accompany a student being transported in a private vehicle.

All volunteer drivers, including staff, must meet requirements and be on the approved volunteer drivers list.

VACANCIES/TRANSFERS

Voluntary and involuntary transfer of staff members may be authorized by the Superintendent based on district personnel needs and in accordance with district procedures and collective bargaining agreements.

VACATIONS

The Board shall provide for annual vacation for all regular 12-month employees, consistent with any pertinent statutes, contractual obligations and pursuant to the provisions of this policy and related administrative rules.

The purpose of vacation is to provide an interval of rest and relief from the routine of work. The Board believes such a respite, taken regularly, will increase the employee's productivity and serve the welfare of the employee.

The Board reserves the right to specify the conditions under which vacation may be taken. The superintendent shall develop procedures which will assure that all employees regularly use their accrued vacation. Any carryover of vacation, past August 31, must be reviewed by the Superintendent and cannot exceed 10 days.

VOLUNTEERS

The district encourages the constructive participation of groups and individuals in the school to perform appropriate tasks during and after school hours under the direction and supervision of staff.

The district will use the complaint process in administrative regulation KL-AR - Public Complaints to address any alleged violations of Board policy, GBMA - Whistleblower.

STUDENT OPERATIONAL PROCEDURES

ADMINISTERING NONINJECTABLE MEDICINES TO STUDENTS

Students may be permitted to take prescription or nonprescription medication at school or at school-sponsored activities on a temporary or regular basis, when necessary. Training will be provided by a qualified trainer to designated school staff authorized to administer medication to students within individual school buildings and while participating at school-sponsored activities on or off district property.

Training will provide an overview of applicable provisions of Oregon law, administrative rules, district policy and administrative regulations and include, but not be limited to, safe storage, handling, monitoring medication supplies, disposing of medications, record keeping and reporting of medication administration and errors in administration, emergency medical response for life-threatening side effects and allergic reactions and student confidentiality. Materials as recommended and/or approved by the Oregon Department of Education will be used.

Students in grades K-12 are permitted to self-medicate prescription and nonprescription medication in accordance with the following procedures:

- a. Grades K-8: Self-medication of prescription and nonprescription medication is not allowed except in cases when directed by a physician or other licensed health care professional, where a student must carry such medication on their person for immediate access and the necessary permission form and written instructions have been submitted as required above.
 - b. Grades 9-12: Self medication of prescription and nonprescription medication may be allowed. No permission form is required for self-medication of nonprescription medications (9-12th only).
1. A parent (guardian) permission form and written instructions have been submitted for all prescription and nonprescription medication. In the case of prescription medications, permission from the physician or other licensed health care provider is also required. Such permission may be indicated on the prescription label. Building principal permission is also required for all self-medication requests;
 2. Students who are developmentally and/or behaviorally unable to self-medicate will be provided assistance by designated school staff. A permission form and written instructions will be required as provided above;
 3. All prescription and nonprescription medication must be kept in its appropriately labeled, original container, as follows:
 - a. Prescription labels must specify the name of the student, name of the medication, dosage, route and frequency or time of administration and any other special instruction;
 - b. Nonprescription medication must have the student's name affixed to the original container.
 4. The student may have in their possession only the amount of medication needed for that school day except for manufacturer's packaging that contains multiple dosage, the student may carry one package;
 5. Sharing and/or borrowing of medication with another student is strictly prohibited.

Permission to self-medicate may be revoked if there are any abuses of these procedures.

All other students will be administered medication only by designated school staff after receipt of required parent permission forms and written instructions.

CLASS INTERRUPTIONS

The district is committed to protecting instructional time. Class interruptions of any kind will be kept to a minimum. Students are not to be permitted to interrupt a class in session.

COMMUNICABLE DISEASES/STUDENTS WITH HIV, HBV, AIDS*

Protection from communicable disease is generally provided through immunization, exclusion or other measures provided for in Oregon Revised Statutes and rules of the county health department. A student with certain school restrictable disease is not allowed to come to school while the disease is contagious. This restriction is removed by the written statement of the local health officer or a licensed physician (with the concurrence of the local health officer) that the disease is no longer communicable to others in the school setting. In those cases where a communicable disease is diagnosed and confirmed and the student would not be excluded from school. The district will inform the appropriate staff member to protect against the risk of exposure, as necessary.

Parents of a student six years of age or older who is infected with HIV or HBV and is not a special risk student as defined by the Oregon Department of Human Services, Health Services, are not required by law to report their student's condition to the district. Those students also, as provided by law, have a right to continue school. "Special risk students" means those students infected with HBV or HIV whose health-care provider has reasonable grounds to believe present a special risk to other students or adults in an educational setting. Such special risks include, but are not limited to, a student's ongoing history of biting others, spitting or scratching, lack of control of body secretions or uncoverable, oozing lesions.

Parents of an HIV student five years of age or younger, a special risk HIV student (as defined above), or of any student with AIDS, are required to notify the superintendent of the student's infection in order for the student to be granted permission to continue to attend school. Failure to do so will result in an order by the Oregon Department of Human Services, Health Services, or local health department, excluding the student from school or the parent may voluntarily withdraw the student from school. If the district is informed of the student's infection and written parental permission is obtained, a planning team is convened to address the nature, duration and severity of risk as well as any modification of activities needed.

*HIV – Human Immunodeficiency Virus

*HBV – Hepatitis B Virus

*AIDS – Acquired Immune Deficiency Syndrome

CORPORAL PUNISHMENT

The use of corporal punishment in any form is strictly prohibited by the district and will be considered cause for discipline up to and including dismissal. Corporal punishment is defined as the willful infliction of, or willfully causing the infliction of, physical pain. No teacher, administrator or other school personnel will subject a student to corporal punishment or condone the use of corporal punishment by any person under their supervision or control. Permission to administer corporal punishment will not be sought or accepted from any parent or school official.

A staff member is authorized to employ reasonable physical force when and to the extent the application of physical force is consistent with ORS 339.285-339.303 (Restraint and Seclusion). Physical force shall not be used to discipline or punish a student.

Corporal punishment does not include physical pain or discomfort resulting from or caused by:

1. Training for or participation in athletic competition voluntarily engaged in by a student;
2. Recreational activity voluntarily engaged in by a student;
3. Physical exertion shared by all students in a teacher-directed class activity, which may include, but is not limited to, physical education exercises, field trips or vocational education projects.

DISMISSAL OF CLASSES

Teachers should never dismiss a class before the established dismissal time. Detaining the entire class after dismissal time is also discouraged. Whenever individual students are detained after class, the teacher is expected to provide the student a note for the student's next class teacher.

DRUG, ALCOHOL AND TOBACCO PREVENTION, HEALTH EDUCATION

Students have a right to attend school in an environment conducive to learning. The district will not tolerate the possession, sale or use of unlawful and harmful drugs (illicit drugs, non-therapeutic use of prescribed drugs, misuse of solvents and other dangerous substances and drug paraphernalia), alcohol or tobacco in the schools, on district property, on a school bus or while participating in any school-sponsored activity, whether on district property or at sites off district property.

An age-appropriate drug, alcohol and tobacco prevention curriculum is provided for all students in grades K-12 as a part of the health education curriculum. For students in grades 9-12 not enrolled in health education classes, a program of activities which meets the requirements of the drug, alcohol and tobacco prevention rule has been developed. At least annually, senior high school students will receive age-appropriate instruction.

Each year, a planned staff development and public information program that addresses the needs and responsibilities for the entire staff is developed by the superintendent. The program includes current basic drug, alcohol and tobacco information and an explanation of district drug, alcohol and tobacco policies, procedures and programs. The input of staff in planning and implementing the district's staff development and public information program is encouraged to ensure a drug, alcohol and tobacco program that best meets the needs of district students.

EMERGENCY DRILLS

All teachers are required to provide instruction on fire, earthquake, safety threats and drills for at least 30 minutes each school month in accordance with the requirements of law.

At least one fire drill, which include routes and methods of exiting the school building, will be conducted each month for grades K-12. At least one fire drill will be conducted within the first 10 days of the school year.

At least two drills on earthquakes and two drills for safety threats will be conducted each year.

A map/diagram of the fire escape routes to be followed should be posted near the classroom doorways and reviewed with students. Drills and instruction on safety threats shall include procedures related to lockdown, lockout, shelter in place, evacuation, and other actions to take when there is a threat to safety.

The warning signal for a fire alarm/drill is a horn strobe. Upon the sounding of a fire alarm, teachers are required to:

1. Immediately direct all students to orderly exit the buildings using the evacuation route posted. Students may not stop at lockers, drinking fountains, restrooms, etc. along the way;
2. Close windows, turn off lights and close door;
3. Take roll book;
4. Escort class to at least 100 feet from the building and take roll. Report any unaccounted students to the building principal;
5. Upon "all clear" signal, differing by building, escort students directly back to class. Check roll.

The warning signal for an earthquake alarm/drill differs by building. In the event of an earthquake, teachers are required to:

1. Immediately direct all students to “drop, cover and hold on.” Students should drop to a crouched position with head bent to knees; hands clasped behind the neck, arms against ears, eyes closed and back towards the windows. Safest areas, if indoors, would be under desks or tables as appropriate, along inside walls, in doorways or other protected areas and away from cabinets, bookshelves, light fixtures or other such suspended objects;
2. Wait until shaking stops;
3. Evacuate building following established evacuation procedures;
4. Take roll and report any unaccounted students to the administration;
5. Upon “all clear” signal, differing by building, escort students back to class;
6. If outdoors during an earthquake, direct students to move away from buildings and other overhead objects such as power lines. Drop low to the ground and protect head and neck.

FEATURE FILMS/VIDEOS/OTHER MEDIA

Building principal approval is required prior to showing a feature film/video to students in district classrooms. Only films/videos rated G, PG or PG-13 may be authorized for classroom use.

Requests are to be submitted to the building principal at least two days prior to the proposed showing. Forms are available in the office.

The following information should be included:

1. Title and brief description;
2. Purpose for the showing;
3. Match with course objectives;
4. Proposed date of showing;
5. When and how parents will be notified, or if necessary grant consent;
6. Audience rating.

The showing of all feature films/videos with a G rating requires prior parent notification from the staff member. Feature films/videos with a PG or PG-13 rating must have prior parental consent. Parents should be provided the opportunity to preview a feature film/video, whenever possible.

FIELD TRIPS AND SPECIAL EVENTS

Field trips and other student activities involving travel may be authorized by the Superintendent or designee when such trips or activities contribute to the achievement of desirable educational goals.

Requests should be submitted to the building principal well in advance of the proposed activity. All such requests will be considered based on such factors as availability of funds, the educational value derived, the safety and welfare of the students involved, impact on the regular school program and availability of appropriate supervision, either from within school staff or from volunteers.

Written parental permission must be obtained for each approved trip. The signed forms showing parental approval and acknowledgement of the student conduct guidelines will be maintained on file for a period of one year.

Staff members should contact the office for appropriate substitute and vehicle arrangements and related field trip procedures and forms.

Any out-of-state travel must be approved by the Board.

FLAG SALUTE

Students will be provided an opportunity to salute the United States flag at least weekly by reciting *The Pledge of Allegiance*. Individual staff members and students who do not participate in the salute must maintain a respectful silence during the salute. Each classroom is required to display a United States flag of an appropriate size.

GRADING

The evaluation of student progress is a primary responsibility of all teachers. The highest possible level of student achievement is a common goal of both the district and the home. As a close working relationship between the district and the home is essential to the accomplishment of this goal, regular communications with parents are essential.

Teachers are expected to report a student's progress toward achieving academic content standards to the student and their parents. Parents will receive reports on their student's absences.

Teachers should use a variety of communication devices, including telephone and personal conferences, as well as written grade reports to keep parents well informed. At the beginning of the grading period, students and parents are to be informed regarding the basis of the grades and the methods to be used in determining grades.

Letter grades will be used in grade 7-12 as follows:

- A – Superior
- B – Above Average
- C – Average
- D – Below Average
- F – Failing
- P – Pass – Credit granted, non-graded course
- NP – No pass – Credit denied, non-graded course
- I – Incomplete
- W – Withdrawal

Elementary grading systems will be communicated to families at the beginning of the school year.

Grade reduction or credit denial based on a student's attendance may be permissible only when the student's attendance is not used as a sole criterion for the grade reduction or credit denial. Prior to a grade reduction or credit denial, teachers are required to provide notice to the student, parents or guardians that includes the following information:

1. Identification of how the attendance and class participation is related to the instructional goals of the subject or course;
2. Parents and students will be informed;
3. Procedures in due process are available to the student when the grade is reduced or credit denied for attendance rather than academic reasons;
4. Reasons for nonattendance are considered and the grade is not reduced or credit denied based upon absences due to:
 - a. Religious reasons;
 - b. A student's disability; or
 - c. An excused absence, as determined by the district's policy.

Due process procedures will be provided to all students whose grade is reduced or credit denied for attendance rather than academic reasons. Reasons for the student's absence will be considered. Such notice is to be included in each teacher's syllabus and distributed to students at the beginning of the grading period.

Special education students are to receive grades based on progress toward goals stated in the student's individualized education program (IEP).

HOMEWORK

Teachers at all grade levels are encouraged to consistently assign homework, which is expected to increase in complexity with the maturity or grade level of the students.

Homework may refer to an assignment prepared during a period of supervised study in class or outside of class or which requires individual work in the home.

Homework is expected to be designed to improve learning, to aid in the mastery of skills and to stimulate interest on the part of the student.

The information for any homework assignment should be clear and specific so that the student can complete the assignment. Homework should not require the use of reference materials not readily available in most homes, school libraries or the public library. Homework should require the use of those materials only when the student has had instruction in such use.

HUMAN SEXUALITY, HIV/AIDS, SEXUALLY TRANSMITTED DISEASES, HEALTH EDUCATION

Human sexuality, HIV/AIDS and sexually transmitted disease prevention curriculum has been developed and aligned with the Oregon Health Education Standards and Benchmarks, cooperatively by parents, teachers, administration, local health department staff and others as an internal part of health education and other subjects. The HIV/AIDS and sexually transmitted infections and disease prevention education and the human sexuality education comprehensive plan shall provide adequate instruction at least annually, for all students in grades 6 through 8 and at least twice in grades 9-12 .

Teachers are expected to notify parents of minor students in advance that the material regarding any human sexuality and HIV/AIDS/HBV will be taught. Any parent may request their student be excused from that portion of the instructional program. .

* HIV – Human Immunodeficiency Virus
AIDS – Acquired Immune Deficiency Syndrome
HBV – Hepatitis B Virus

MAKE-UP WORK

A student who has an excused absence from class is permitted to make up those assignments that he/she has missed. The student is expected to make arrangements with the teacher on their first day back in class for the work missed due to absence.

Any student truant from school will be permitted to make up missed work at the discretion of the teacher.

A student suspended from school is to be permitted, as provided by Oregon Administrative Rule, to make up school work upon return from the suspension if the work reflects achievement over a greater period of time than the length of the suspension. For example, the student is allowed to make up final, midterm and unit examinations, without an academic penalty. Students will not, however, be allowed to make up daily assignments, laboratory experiments, class discussions or presentations missed while under suspension.

MEDIA ACCESS TO STUDENTS

The media may be allowed to interview and photograph students involved in instructional programs and school activities including athletic events. Such media access may not be unduly disruptive and must comply with Board policies and district goals.

Media representatives are required to report to the administration for prior approval before accessing students involved in instructional programs and activities not attended by the general public.

Information obtained by media representatives directly from students does not require parental approval prior to publication by the media. Parents who do not want their student interviewed or photographed by the media may direct their student accordingly.

Staff may release student information to the media only in accordance with applicable provisions of the education records law and Board policies governing directory information and personally identifiable information.

PROGRAM EXEMPTIONS

Students may be excused from a state-required program or learning activity for reasons of religion, disability or other reasons deemed appropriate by the district, upon the written request of the parent. The request shall include the reason(s) for the request and a proposed alternate activity.

RELEASE TIME FOR RELIGIOUS INSTRUCTION

Students may be excused from school for religious instruction, not to exceed two hours for grades 1-8 and five hours for grades 9-12 in any school week. Teachers will be notified by the office of any students in their class so excused.

Any student unable to attend classes on a particular day due to religious beliefs is to be excused from attendance requirements for that day.

No such absences shall be counted against a student in determining failure or reduction of grades. Any tests and assignments a student misses because of such absences are to be given to the student upon return to school or at such other times as may be deemed appropriate by the teacher.

RESTRAINT OR SECLUSION

The district has developed a policy and administrative regulation to define the circumstances that must exist and the requirements that must be met prior to, during, and after the use of restraint or seclusion as an intervention with district students. See Board policy JGAB - Use of Restraint or Seclusion and its accompanying administrative regulation.

If restraint or seclusion continues for more than 30 minutes, school staff will attempt to immediately notify parents or guardians verbally or electronically. If restraint or seclusion continues for more than 30 minutes the student must be provided with adequate access to bathroom and water every 30 minutes. If restraint or seclusion continues for more than 30 minutes, every 15 minutes after the first 30 minutes, an administrator for the district must provide written authorization for the continuation of the restraint or seclusion, including providing documentation for the reason the restraint or seclusion must be continued.

Following an incident involving the use of restraint or seclusion, school staff will provide parents or guardians of the student the following:

1. Verbal or electronic notice of the incident by the end of the school day when the incident occurred.

2. Written documentation of the incident within 24 hours that provides:

- a. A description of the restraint or seclusion including:
 - (1) The date of the restraint or seclusion;
 - (2) The times the restraint or seclusion began and ended; and
 - (3) The location of the incident.
- b. A description of the student's activity that prompted the use of the restraint and seclusion;
- c. The efforts to de-escalate the situation and the alternatives to restraint or seclusion that were attempted;
- d. The names of staff of the district who administered the restraint or seclusion;
- e. A description of the training status of the staff of the district who administered the restraint or seclusion, including any information that may need to be provided to the parent or guardian; and
- f. Timely notification of a debriefing meeting to be held and of the parent's or guardian's right to attend the meeting.

If the restraint or seclusion was administered by a person without training, the administrator will ensure written notice is issued to the parent or guardian of the student that includes the lack of training, and the reason why a person without training administered the restraint or seclusion. The administrator will ensure written notice of the same to the superintendent.

An administrator will be notified as soon as practicable whenever restraint or seclusion has been used.

Whenever restraint or seclusion extends beyond 30 minutes, staff of the district will immediately attempt to verbally or electronically notify a parent or guardian.

A district Restraint and/or Seclusion Incident Report must be completed and copies provided to those attending the debriefing meeting for review and comment. The completed Restraint and/or Seclusion Incident Report Form shall include the following:

- g. Name of the student;
- h. Name of staff member(s) administering the restraint or seclusion;
- i. Date of the restraint or seclusion and the time the restraint or seclusion began and ended;
- j. Location of the restraint or seclusion;
- k. A description of the restraint or seclusion;
- l. A description of the student's activity immediately preceding the behavior that prompted the use of restraint or seclusion;
- m. A description of the behavior that prompted the use of restraint or seclusion;
- n. Efforts to de-escalate the situation and alternatives to restraint or seclusion that were attempted;
- o. Information documenting parent or guardian contact and notification.

A documented debriefing meeting must be held within two school days after the use of restraint or seclusion; staff members involved in the intervention must be included in the meeting. The debriefing team shall include an administrator. Written notes shall be taken and a copy of the written notes shall be provided to the parent or guardian of the student.

If serious bodily injury or death of a student occurs in relation to the use of restraint or seclusion, written notification of the incident must be provided to the Department of Human Services within 24 hours of the incident.

If serious bodily injury or death of a staff member occurs in relation to the use of restraint or seclusion, written notification of the incident must be provided to the superintendent within 24 hours of the incident, or to the union representative for the affected person, if applicable.

The district will maintain a record of each incident in which injuries or death occurs in relation to the use of restraint or seclusion.

Use of restraint and/or seclusion in an emergency with a student who does not have restraint or seclusion as a part of their IEP or Section 504 plan is subject to all of the requirements established by Board policy JGAB - Use of Restraint or Seclusion and its administrative regulation with the exception of those specific to plans developed in an IEP or Section 504 plan.

RESUSCITATION DECISIONS/LIFE-SUSTAINING EMERGENCY CARE

No staff member may comply with any directive from parents or others, written or verbal, that life-sustaining emergency care be withheld from a student in need of such care while under the jurisdiction and supervision of district staff.

“Life-sustaining emergency care” means any procedure or intervention applied by appropriately trained district staff that may prevent a student from dying who, without such procedure or intervention, faces a risk of imminent death. Examples of life-sustaining emergency care may include: efforts to stop bleeding, unblocking airways, mouth-to-mouth resuscitation and cardiopulmonary resuscitation (CPR).

In a life-threatening situation, staff members are expected to dial 911 for paramedic assistance and provide life-sustaining emergency care to any student requiring it in order to sustain life until relieved by paramedics or other appropriate medical personnel.

RETENTION OF STUDENTS

Students will normally progress annually from grade to grade. Exceptions may be made when, in the judgment of the professional staff, such exceptions are in the best educational interest of the students involved.

A recommendation for retention or promotion of a student will be made only after prior notification and explanation to the student’s parent or guardian.

The final decision for promotion or retention will rest with the parent or guardian. If the parent or guardian’s decision is not in agreement with the school’s recommendation, the parent or guardian must sign a “release from responsibility” form to be placed in the student’s file.

STUDENT CONDUCT

All students are to comply with district policies and administrative regulations, written building and classroom rules, pursue the prescribed course of study, submit to the lawful authority of teachers and school officials, and conduct themselves in an orderly manner at school during the school day and during school-sponsored activities. In addition to adopted Board policies governing student conduct, [administrative regulations] [, and school rules] specifying student conduct expectations have been established. These [regulations] [rules] apply to actions which occur on district property; at any district-sponsored activity regardless of location; or when traveling to or from school or district-sponsored activities on transportation provided or approved by the district; at the bus stop; or whenever such conduct causes a substantial and material disruption of the educational environment or the invasion of rights of others.

A student handbook, code of conduct, or other document shall be developed and distributed to parents, students, and employees. Each school shall publish any additional rules specific to the school and distribute it to students and parents.

Disregard of these rules constitutes grounds for suspension, expulsion, or other reasonable disciplinary action.

Student conduct rules unique to individual classrooms may also be developed by teachers. All such rules must be consistent with district policy, administrative regulations and school rules governing student conduct and discipline. Classroom rules and consequences are to be reviewed with students, posted in classrooms and made available to parents.

Classroom rules and consequences are to be submitted to the building principal for review and approval prior to implementation.

STUDENT DETENTION

Teachers may detain a student after school hours for disciplinary reasons provided the parent has been notified of the detention and, in the case of bus students, prior arrangements have been made for the student's transportation home.

Parents may be asked to arrange for the transportation of the detained student; however, if the parent cannot or will not provide it, an alternative disciplinary procedure must be substituted.

Students who are detained after school are not to be left unsupervised during their detention.

STUDENT DISCIPLINE

Student discipline, whether in the classroom, building, district grounds or at district-sponsored activities regardless of location, is the responsibility of all staff. Student conduct infractions have been divided into two categories, severe violations and minor violations. These are listed in the Student/Parent Handbook.

Refer to Student/Parent Handbook for details.

STUDENT DISMISSAL PRECAUTIONS

No teacher may permit any student to leave class/school prior to the regular hour of dismissal except as may be authorized by the office.

During school hours, or while engaged in district-sponsored activities, students may be released only into the custody of parents or other authorized persons.

STUDENT/PARENT HANDBOOK

A student/parent handbook is issued to all students at the beginning of each new school year and at the time of registration for new students moving into the district at other times of the year.

All staff are expected to familiarize themselves with the general information, administrative regulations and procedures pertaining to students as set forth in the student/parent handbook and in Board policy.

Staff members are expected to report any unauthorized person on school property to the building principal.

SPECIAL PROGRAMS

ALTERNATIVE EDUCATION PROGRAM

Alternative education programs have been developed and identified to meet the individual needs of students. These programs are made available to students who are unable to succeed in the regular programs because of erratic attendance or behavioral problems; who have not met or who have exceeded all of Oregon's academic content standards; when the district determines that the placement serves the student's educational needs and interests and assists the student in achieving district and state academic standards; or when a public or private alternative education program is not otherwise readily available or accessible. The involvement of staff, parents and the community in recommending alternative education programs for Board approval is encouraged.

Alternative education programs consist of instruction or instruction combined with counseling and may be public or private. Home schooling is not a permissible alternative education option.

When a student is placed in an alternative education program by the district, the district is obligated to pay the actual private alternative education program cost or an amount equal to 80 percent of the district's estimated current year's average per-student net operating expenditure, whichever is less. If the student is not successful in the alternative education program, there is no obligation to propose or fund a second alternative.

The district provides individual notification to students and parents regarding the availability of alternative programs semi-annually or when new programs become available under the following situations:

1. When two or more severe disciplinary problems occur within a three-year period. Severe disciplinary problems are defined in the student/parent handbook;

2. When attendance is so erratic the student is not benefitting from the educational program. Erratic attendance is defined on a case-by-case basis;
3. When an expulsion is being considered;
4. When a student is expelled;
5. When emancipated minor or a student's parent or legal guardian applies for exemption from compulsory attendance on a semi-annual basis.

Teachers with questions concerning available alternative education programs should contact the building principal.

ASSESSMENT PROGRAMS

The district's assessment program has been developed to meet state requirements and local district needs.

Assessment results are used to measure the academic content of standards and to identify students who meet or exceed the performance standards adopted by the State Board of Education. Additional services, alternative educational or public school options are made available to any student who has not met or has exceeded all of the state-required academic content standards. The district's assessment program consists of the following:

1. Criterion-reference assessments, including performance-based assessments, content-based assessments and other valid methods as may be required by state and federal requirements;
2. Individual diagnostic and ability evaluations in all grades when individuals have been referred and parental permission obtained;
3. Assessments by individual teachers;
4. Other schoolwide and grade level wide assessments.

Dates for district and state assessments will be announced by the building principal, as appropriate.

An adult student or a parent on behalf of a student may annually opt-out of taking the statewide summative assessments as provided by state law. The district shall provide the required notice and necessary forms to the parent or adult student.

BILINGUAL EDUCATION [ENGLISH LANGUAGE LEARNERS]

Students whose primary language is a language other than English are provided appropriate assistance until they are able to use English in a manner that allows effective, relevant participation in regular classroom instruction.

Parents who are not able to use English in a manner that allows effective, relevant participation in educational planning for their student will be provided with relevant written, verbal or signed communication in a language they can understand.

Staff in need of assistance in translations, materials selection, special curriculum development, etc., should contact the building principal.

BREAKFAST/LUNCH PROGRAMS

The district participates in the National School Lunch, School Breakfast, and Commodity Programs.

The district's meal charge requirements will be published at the beginning of each school year and provided upon enrollment of a student, or the transfer of a student. The meal charging requirements will be posted on the district website and made available in the information on free and reduced-priced meals. Free and reduced-price meals are available for students unable to pay the full price for meals. General information, eligibility criteria and confidential application forms are available through the office.

If a student is known to be homeless, contact the District Homeless Liaison for immediate enrollment in the free and reduced meal program.

COUNSELING PROGRAM

The district's counseling program is designed to involve all staff and parents in the educational, personal/social and career development of students.

Counselors may provide such services as academic counseling for students and parents, including assistance and information in the areas of scheduling, forecasting, assessments, alternative education programs, progress toward meeting local and state graduation requirements, scholarship and college entrance requirements and identification of district, community and statewide resources for students with academic personal/social or other needs.

Counselors are also available to assist students with academic, social and personal problems and define and arrive at positive solutions through a variety of conference settings.

Students generally schedule appointments to see a counselor through the counseling office. Prior notice to a teacher that a student will be missing class may not always be possible because of the emergency nature of many of the appointments.

Teachers may refer to a student to a counselor by contacting the counselor directly. Teachers interested in arranging a conference with a counselor and a particular student and/or parent should contact the counseling office.

Counselors and teachers with counseling responsibilities are expected to fully respect the right of privacy of those with whom they enter counseling relationships. Confidential matters are not to be discussed over the phone.

Confidentiality is not to be abridged except:

1. When there is clear and present danger to the student or others;
2. To consult with other professional persons when this is in the student's interest;
3. When the student waives this privilege in writing.
4. When specifically authorized or required by law.

HEALTH-SERVICES PROGRAMS

The district has an established health-services program which provides:

1. Pertinent health information on students, as required by Oregon statutes and rules;
2. Health-appraisal services, including screening for possible vision or hearing problems Health counseling for students and parents, when appropriate;
3. Health counseling for students and parents, when appropriate;
4. Health-care and first-aid assistance that is appropriately supervised and isolates the sick or injured child from the student body;
5. Control and prevention of communicable diseases as required by the Oregon Department of Human Services, Health Services, and the county health department;
6. Assistance for students in taking medication according to established district procedures;
7. Services for students who are medically fragile or have special health-care needs;
8. Integration of school health services with school health education programs.

All staff will be informed of their responsibilities in these areas.

HOMEBOUND INSTRUCTION

Homebound instruction is provided to any student whose health or impairment causes them to be absent from school for at least [10] days. A physician's statement substantiating such absence is required in order for the district to authorize homebound instruction.

The amount of instructional service provided will be related to each student's educational needs and physical and mental health.

Teachers are expected to cooperate with counselors, students, and parents to provide such assignments/homework as may be necessary to help students maintain satisfactory progress during the student's temporary absence from school.

Such services may be provided only upon prior superintendent approval.

HOME TUTORING SERVICES

Home tutoring services may be provided to students who are temporarily disabled or for other medical reasons unable to attend school in excess of 10 consecutive school days.

A physician's statement substantiating such absence is required in order for the district to authorize home tutoring.

The home tutor will work with the student's teacher to provide the necessary instructional support needed to help the student maintain their academic progress.

Such services may be provided only upon prior superintendent approval.

LIBRARY/MEDIA SUPPORT SERVICES

Teachers should contact library staff for assistance in obtaining audiovisual materials and equipment, computer software, videotapes, laser discs, sound filmstrips and other instructional media materials maintained by the district.

Additional supplemental materials may also be available through the local education service district and/or state library system.

A professional collection of books and current periodicals is also available for staff use in the library. Materials may be checked out through library staff.

Teachers may schedule with staff to bring entire classes to the library for project work, as appropriate. Individual students may be admitted for specific project work during class time with a note from the student's teacher.

PREGNANT/PARENTING STUDENT PROGRAMS

The district advocates the right to continued public education for all pregnant and parenting students. A pregnant and parenting student should be encouraged to continue with his/her educational program and to participate in all school-sponsored activities unless physically unable.

Teachers are expected to work cooperatively with counselors, parents and students in the development of individualized educational programs or services, or both, to address the needs of pregnant and/or parenting students when their educational needs cannot be met by the regular-provided school program.

SPECIAL EDUCATION SERVICES

Students kindergarten through 21 years of age living in the district that have been evaluated by qualified educational and/or medical personnel and found eligible for services or programs for students with disabilities shall be provided a free and appropriate education.

The related services and educational programs provided are designed to meet the needs as specified by the student's Individualized Education Program (IEP).

Special classes, separate schooling or other removal of students with disabilities from the regular educational environment occurs only if the nature or severity of the disability is such that education in regular classes with the use of supplementary aids and services cannot be achieved satisfactorily. A child with a disability is not removed from education in age-appropriate regular classrooms solely because of needed modifications in the general curriculum.

Placements are made by the building's IEP team, which consists of the student's parent(s); one regular education teacher, if the student is participating in the regular education program, or, if the student does not have a regular education teacher, a teacher qualified to teach a student the same age; the student's special education teacher or a special education provider; a representative of the district; an individual, who may be another member of the team, who is knowledgeable about the student's disability and who can interpret the instructional implications of the evaluation results; the student, when appropriate, and other individuals who have knowledge or special expertise regarding the student, at the discretion of the parent or district; and other agency representative as provided by law.

Teachers with questions regarding the referral and placement process should contact a special education staff member.

All teachers are expected to work cooperatively with special education staff to modify curriculum, instructional strategies and grading as necessary to meet the needs of a student's IEP.

SPEECH AND LANGUAGE PROGRAM

In order to help meet the needs of students diagnosed with communication disorders, the district supports programs that provide instructional services that address the fundamental, age-appropriate speech, language and hearing skills needed to fully participate in their educational programs. Services are provided to eligible students in grades K-12.

Children with communication disorders are determined to be eligible for specifically designed instruction per the criteria established by the Individuals with Disabilities Education Act (IDEA) and Oregon Law.

Teachers with questions or concerns regarding student placement or scheduling in the Speech-Language and Hearing programs should contact the district Speech-Language Pathologist.

TALENTED AND GIFTED PROGRAMS

The district has developed a written plan for the identification of and provision of programs and service for academically talented and/or intellectually gifted students.

Identified students must score at or above the 97th percentile on selected district tests. Additionally, talented and gifted students from special populations such as ethnic minorities, the economically disadvantaged, the culturally different, the underachieving gifted and students with disabilities may also be identified.

Each teacher will receive a list of identified talented and gifted students assigned to his/her classroom. Teachers are expected to modify curriculum, instructional strategies and grading, as may be necessary, to meet the needs of identified students.

The district has established an appeals process for parents to utilize if they are dissatisfied with the identification process and/or placement of their student in the district's program and who wish to request reconsideration. A complaint procedure has also been developed for parents to resolve disputes regarding the appropriateness of programs and services provided to talented and gifted students. Staff should refer parents with questions to the building principal.

TITLE I PROGRAMS

In order to help meet the needs of disadvantaged students, the district participates in Title I federally-funded programs that provide basic skills instructional services for educationally disadvantaged students in grades K-6 and who live in targeted low-income areas. Students identified in need of Title I services are provided instruction on a daily schedule, as appropriate. Title I staff will meet with individual teachers regarding scheduled instruction.

Children with disabilities and Limited English Proficient children are eligible for Title I-A services on the same basis as other children who are selected for services.

Teachers with questions or concerns regarding student placement or scheduling in this program should contact the building Title I staff.
